

Science - CPD Programme

Secondary

North Midlands and Black Country Science Learning Partnerships continue to deliver a series of CPD courses for teachers of STEM subjects that cover subject knowledge, pedagogy, curriculum design and health & safety. Each course is led by one of our accredited, subject specialist facilitators and delivered either remotely across a series of short, live sessions using adobe connect, or face to face. In between, through structured tasks, you will explore key resources, develop materials to share with colleagues and reflect on your own learning.

To see more detail for each course please click on the course title to access the [STEM learning CPD website](#) where you can make your booking.

Further support, resources and booking links can be found on: [Professional Development - Potteries Educational Trust](#)

Please do get in touch should you have a particular need in your teams as we can provide a range of support.
